The carpentry and locksmithing ateliers of the Kielener Atelier of the ATP asbl have joined forces for the construction of event chalets.

The Kielener Atelier offers an event chalet rental service to set up your exhibition and sales space during events. In collaboration with an external company, we provide transportation, delivery, assembly and dismantling of chalets throughout Luxembourg.

We have five chalets which can be rented individually at the price of 165€ excl VAT per day (delivery and installation not included). An estimate can be quickly organized at your request.

### **Technical information and particularity**

Our chalets are built of fir wood. They have a front awning, a shelf, and a counter to display your products. A lamp is also integrated within them.

The dimensions of the chalets are as follows:  
length x depth x height : 2950 x 2250 x 2350 mm.

The chalets are foldable and easily transportable thanks to their custom-made metal frame. They are created by the carpentry and locksmiths ateliers of the Kielener Atelier.
